### Instructions for using this workbook:

1. On any sheet in this workbook, items you can click on or change the value of are colored **YELLOW**. All other items are 'locked out'.
2. All sheets have brief instructions at the top of them explaining what to do on the sheet.
3. This sheet is the master table of contents. You can click on any of the links to the left to switch to the corresponding sheet. All sheets have a yellow box in the upper left corner labeled "[Click to return to the start page](#)" that brings you back here.
4. There are 5 other 'special' pages:
  - [Master Score Sheet](#): The grand overview of all events and scores
  - [Printable Medals List](#): Prints out the x top places in each event for use at the awards ceremony
  - [Setup](#): Sets up the titles, team names, and event names
  - [Printable Blank Score Sheet](#): Print out to give hard copies to Event Supervisors if needed
  - [Blank Score Sheet](#): Copy into a new workbook and give to Event Supervisors if needed
5. The remaining sheets are for each individual event and should be filled out with the scores from that event.
6. All place and rank calculations are automatic. You only need to enter scores (and tie breakers / tiers if appropriate).
7. There is built in error checking for things like ties and blank scores. Big red boxes appears when there is an error telling you what it is and where it's located.
8. You must have Macros enabled in Excel, or Excel will give you an error.

**INSTRUCTIONS:**

- Only fill in the YELLOW cells. Everything else is automatic.
- Special codes: "p" for participation, "ns" for no show, "dq" for dq'd (without the quotes) allowed in any column.
- Raw Score column: A red warning box indicates if you have blank scores and haven't put in a special code from above.
- (Optional) Tier column: Tier 1 ranks higher than Tier 2, etc.
- Tie Break column: A red warning box indicates if you have ties and the tied rows are highlighted red. To resolve, fill in those rows with the value from the tie break question.
- Sort Order selectors: use drop down list to set high vs. low wins for raw scores and tie breaks.
- (Optional) Import Data button: use to copy raw scores / tiers / tie breaks from another Excel file
- (Optional) Create Rank sorted button: creates a standalone version of this sheet sorted by rank instead of team number
